

Overview

Mobile and heated pop up crockery dispensers. Designed for the storage and dispensing of any size or shape of plate or bowl, oval, square or designer shaped that can fit within a 305mm (12") square. With a maximum capacity of around 75 plates per tube. The dispensers have a variable spring system to accommodate different weights of plates. Lift off top plate and the next one automatically moves up into position. Heated units fitted with well proven solid state elements provide evenly distributed heat. Complete with Stainless steel covers and a 13amp plug and cable. The heating is automatically controlled providing an internal air temperature of 40°C, for convenience there is a handy cover /lid holder.
